

NSCGA Plot Exchange Policy, 2/23/2026

Any NSCGA member who has paid their seasonal dues may make a request to the Membership Committee (membership@newarkstcommunitygarden.org) to exchange their plot for a specific reason (smaller, larger, sunnier, shadier, closer to Newark Street). The membership committee will not grant requests for a specific plot #. The member must have been in their assigned plot for one year. Anyone making a request will be placed on a plot exchange list that records their name in order of their request. When a plot becomes available, they will be contacted by the Plot Assignments Coordinator who will give them their new plot number. The member must leave their current plot in good, assignable condition. That plot will be reassigned to the next person on the waitlist. A member may request to exchange plots no more than one time in 10 years.
